Mara Quill

Senior Backend Engineer

mara.quill@example.com | +44 20 7946 0000 | linkedin.com/in/maraquill | London

SUMMARY

Backend engineer with seven years building payment and ledger systems in Go and Rust.

EXPERIENCE

Senior Backend Engineer, Larkspur Payments, London (2021 - Present)

- Cut ledger reconciliation time by 60% by moving batch jobs to Kafka consumers in Go
- Designed the Postgres partitioning scheme for 400M payment rows
- Led a four person on-call rotation and wrote the incident runbooks

Backend Engineer, Quarry Labs, Leeds (2018 - 2021)

- Built the billing API in Rust used by 30 merchant integrations
- Ran Terraform for three AWS accounts

Software Engineer, Kestrel Systems, Leeds

- Shipped internal REST APIs for the logistics team
- Moved nightly reports from cron scripts to a queue based worker

EDUCATION

University of Leeds, B.Sc. Computer Science, 2014 - 2018

SKILLS

Languages: Go, Rust, SQL, Python
